Mr. Amory -

It is important to note that the DDP position appears to have been made on the basis of Tab B. This was a purely informal working draft handed to the Management Staff with no thought of its becoming the official draft. A copy of the official draft which was submitted to DDP in January is attached herewith. You will note that there are a number of significant differences, especially the wording of paragraph c. Nevertheless, there is a basic substantive difference underlying the whole DDP position. While it may be possible to iron out some of these differences, I feel that I should not undertake to do so without checking with you.

I MISSION

Under the general supervision and administration of the DD/I, the Senior Research Staff is charged with the conduct of broad programs of fundamental research on, and speculative study of, international Communism - both as a subversive movement and as an instrument of Soviet policy - as well as means of countering international Communism. This activity is in part intelligence, in part estimation, and in part speculation on policy. The mission of the SRS is primarily in support of the DCI and the DD/I in their respective roles with the NSC, the NSC Planning Board and the OCB. Finally, the SRS will participate in certain functions of common concern to members of the Intelligence Community and to other government Agencies.
